303 Allens Avenue
Providence, RI 02905

Dear Ellis,

I just want you to know how appreciative all of us at Gilbane Building Company and the Town of North Smithfield are with regard to the service you provided us. As you can imagine how a community feels incredibly vulnerable when students cannot use a school after years of planning and construction. Mark Amato took the bull by the horns and pushed the reconstruction of the fire pump motor through your process. The complexity of the rebuild was beyond my comprehension but I left each conversation with Mark with a tremendous sense of confidence in not just his knowledge but his genuine sincerity in getting the job done.

Please thank all of your people that participated in helping us. I have included as a small token some Gilbane T-shirts that your team may enjoy.

Sincerely,

A handwritten signature in black ink, appearing to read "Bill", written over a horizontal line.

William J. Gilbane, Jr.
President and Chief Operating Officer
